Re: Certification of Violation Correction for
Westates Carbon-Arizona Incorporated

Dear Mr. Walsh:

On March 15, 1994, a hazardous waste investigation was conducted by representatives of the United States Environmental Protection Agency (U.S. EPA) at Westates Carbon-Arizona Incorporated, EPA ID. No. AZD982441263. During the course of this investigation, information was gathered in accordance with Section 3007 of the Resource Conservation and Recovery Act (RCRA), as amended [42 U.S.C. 6927].

Pursuant to Section 3008 of RCRA [42 U.S.C. 6928], U.S. EPA required you to correct the identified areas of noncompliance and to submit documentation of their correction to the U.S. EPA within 30 days of your receipt of the Warning Letter and inspection report sent on July 13, 1994.

The facility's subsequent response, dated August 10, 1994, adequately addresses the violation and documents the facility's return to compliance with the regulations cited in the inspection report. This letter shall not be construed as a determination by U.S. EPA of your compliance with any other applicable regulations.

Westates Carbon-Arizona, Incorporated should continue to take the necessary steps to maintain and ensure compliance with all applicable Federal, State and local environmental requirements.

If you have any questions please call Amy Sokolov of my staff at (415) 744-2124.

Sincerely,

Greg Czajkowski
